

Which third world country provides totally free education, from pre-school to university, for its citizens?

Which third world country has a lower infant mortality rate than the USA?

Which third world country provides totally free health care, from the cradle to the grave, for its citizens?

Which third world country has endured an economic blockade from its neighbour the USA for more than 50 years?

Cuba!

How can you find out more about this small Caribbean country and its vibrant, generous people?

Join the Australia-Cuba Friendship Society, or contact us for more information.

Our aims are:

- To promote and encourage friendship, cultural and information exchanges between the peoples of Australia and Cuba;
- To support Cuba through financial donations to particular projects (e.g. supporting the refurbishment of a provincial hospital)
- To raise awareness within Australia about Cuba, its people, and its many achievements despite the longstanding US economic blockade.

Members receive our monthly bulletin, details of the annual ACFS Work/Study Brigade to Cuba and participate in our solidarity, cultural and fundraising activities.

Australia-Cuba Friendship Society (Brisbane)
